

How does visibility affect your accounting team?

Three areas to increase insight, performance, and productivity.

With shorter deadlines, more complex transactions, and changing regulations — **how do you make sure it all gets done accurately and on time?**

	When you experience:	You should know:		And consider this:
1. IMPROVED TIMING AND ACCURACY	Missed deadlines due to time spent gathering information from disparate sources	XCM helps streamline processes for monthly or quarterly close and forecasting resource needs	>	30% Automated workflow can help accounting departments increase productivity by up to 30% ¹
2. GREATER VISIBILITY AND CONTROL	Bottlenecks created by not knowing the status of jobs and interdepartmental dependencies	With XCM, tasks are easy to track, resources are based on availability, and you have clear communication across your team	>	55% 55% of business and IT leaders can't tell if documents have been reviewed due to process visibility challenges ²
3. INCREASED ACCOUNTABILITY	Daily concerns about keeping up with changing regulations and allocating the right resources	XCM's 360° real-time view of all work in process offers more control at an individual departmental, and organizational level	>	23% Organizations that create a "connected document environment" can reduce compliance risk by up to 23% ²

A true workflow platform provides four key workflow benefits that lead to increased productivity.

Visibility: Having a 360° view provides the insight needed to make resource adjustments or changes.

Control: Identifying departmental bottlenecks, and implementing process efficiencies will let you deliver quality results.

Flexibility: Enacting continuous process improvements will help deliver increasing efficiency.

Accountability: Gaining a real-time "single source" of status for every assignment, task and deadline supports greater accountability.
